REPLY® INTERACT

The Reply® Interact, compact and lightweight, is ideal for many events large or small where simplicity is key. If you are conducting any form of meeting a training session, group voting, classroom polling, or even an election this keypad can deliver simple, yet multi-functional and reliable voting.

REPLY® INTERACT PRO

Our new Reply® Interact Pro keypad or clicker is a “credit card” style keypad, using re-chargeable batteries to provide greater speed and range than any other keypad in the same class. The Reply® Interact Pro, compact and lightweight, is ideal for all events large or small, especially shareholder/AGM meetings, Trade Union/Association Meetings and all manner of Candidate Elections.
