

PlenarVote™

Simple, Clean, Legal, Fast and Fully Transparent. The perfect way to avoid confusion and complications on your polls..

Key Features:

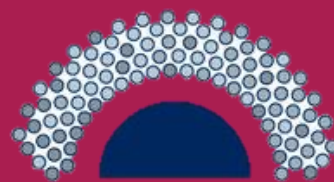

- ✓ Overview of the participants
- ✓ Voting Options selectable
 - ✓ Secret
 - ✓ Open
- ✓ One Slide per Topic
- ✓ Store all motions of a session in a list
- ✓ Printable report directly available

As session chairperson, you are responsible for conducting the votes in your district or state parliament. Instead of looking for suitable candidates and preparing the content of your reports and agenda items perfectly, you deal with the organisational formalities of the election procedure.

Thanks to a 100% secure hardware transfer and software adapted to every detail of your charter, PlenarVote™ ensures the smooth running of your next votes. We are also happy to convince your members of parliament!

PLENARVOTE™

REPLY® INTERACT MINI

The Reply® Interact Mini is smaller than a credit card, easy to use and transport. With its 5 input keys, it is ideal for many applications. The Reply® Interact Mini is well suited for all meetings and gatherings where no more than 5 response options are needed. In the LCD display of the voting unit, users can always see if their vote was successful and what they entered. In PlenarVote™, the voting results are displayed secretly or openly as desired directly after the end of the voting.
